Dixon, IL – The Illinois Department of Transportation announces today that weather permitting, construction work on IL 72 west of Davis Junction will begin on Monday, June 22, 2015. Martin & Company Excavating will be making repairs to the bridge carrying IL 72 over the Dakota, Minnesota and Eastern Railroad. The \$366,980 contract will be completed by early September.

Traffic will be restricted to one lane across the railroad overpass and controlled by temporary traffic signals as the structure repairs are completed on one lane of the bridge at a time. The contractor will be making concrete deck repairs, replacing expansion joints, and placing a new wearing surface on the structure.

Motorists should be prepared to stop for the temporary traffic signals. Drivers should expect short delays and plan their trips allowing for extra time to go through the work area.

Please slow down and use extreme caution while driving through all work zones.
